

≡ Referral program

Introducing Analytics Mania referral program.

Give 10%, get 10%

Recommend Analytics Mania's courses to your peers/colleagues/friends and you will both get a 10% discount code for your next purchase. Here's how it works:

- You get your unique referral link ([it's available here](#)). Share it with your friend.
- If your friend clicks that link and goes to the checkout, a 10% coupon code will be applied (multiple discounts **cannot** be applied at the same time)
- When your friend makes a purchase, you will get a unique 10% coupon code ([you will find it here](#))
- You can then use that coupon code on your next purchase (multiple codes **cannot** be applied at the same time)

Go to your referral program profile

Note: You can apply the referral coupon code only for your next purchase/payment plan. If you currently have an active monthly payment plan, referral discount cannot be applied to it.
